ISO 13485: 2016

FDA Registered Facility

RICA Surgical Products, Inc. is an FDA registered facility and ISO 13485:2016 certified surgical instrument manufacturer and medical products marketer based in Schiller Park, Illinois. Since 1984, RICA has been providing high quality surgical instruments, medical equipment and supplies to surgeons, veterinarians, medical hospitals and other health care professionals. The foundation of RICA's business is our commitment to provide you with high quality products at an excellent value.

RICA offers a wide selection of surgical instruments, time-saving devices, and its SteriBest® brand of sterilization products. This catalog represents a sampling of the various types of surgical instruments, accessories, time-saving devices and other useful products RICA can provide. If you are looking for an instrument not listed in this catalog, visit our website at www.ricasurgical.com or contact our office at 1-800-889-3218 for availability and current pricing. In addition, RICA can custom order instruments for you based on your specifications. We pride ourselves on being able to find the right instrument or product you need for your practice.

For pricing on any of the products included in this catalog, please refer to the current RICA Surgical Products price list, or visit our websites at www.ricasurgical.com or www.steribest.com.

Thank you for reviewing our product offerings. We appreciate your interest in our surgical suite products. RICA will work hard to continue to earn your business by providing you with excellent customer service and a fantastic value for your purchases.

INSTRUMENT QUALITY GRADES

RICA Surgical Products makes it convenient and easy for you to purchase surgical instruments. RICA offers the surgeon a wide variety of surgical instruments with a choice of quality and prices. In addition, RICA fully supports their instruments with a guarantee and unique warranty, as well as a complete instrument repair service. Therefore, you are able to purchase the surgical instruments you need from RICA to meet your needs, whether it be high quality instruments for longevity or economical instruments to stay within your budget.

RICA offers a choice of two grades of surgical instruments varying in quality and cost. These choices allow you to purchase all of the instruments you desire based on your specifications from one manufacturer, simplifying the purchase process and acquisition of your instruments. Make your selection of quality and price from the two grades of surgical instruments RICA offers.

GRADE 1

This grade of surgical instrument is the highest quality instrument available in the market today. These precision German-quality instruments are forged and handcrafted specifically for RICA by master craftsmen. Using the most exacting standards in the industry, these instruments are manufactured using 410-420 surgical grade stainless steel, which is the best series of steel to use for maintaining hardness and longevity. Grade 1 instruments will provide the surgeon with unfaltering quality, excellent durability, consistent reliability and a great investment.

All instruments in this category include an unconditional lifetime guarantee on materials and workmanship and represent the best value based on long term economics. All inserts for tungsten carbide instruments are warranted for three years.

Instruments of this grade are designated with a catalog number that begins with the prefix number 1 (i.e. 1-xxx). Therefore, if you want to purchase the highest quality grade of surgical instruments, please order the instruments with this number designation.

GRADE 2

The surgical instruments classified as Grade 2 are high quality instruments that are more affordable than our Grade 1 instruments. These instruments are manufactured to meet the rigorous standards and daily requirements of the operating room (hence "operating room" quality). These instruments are manufactured using 410-420 surgical grade stainless steel. The surgical instruments in this grade represent a high quality alternative that will provide more short-term value for the surgeon. An excellent line of instruments to purchase for less critical procedures and when price is important.

These instruments also offer an unconditional lifetime guarantee against defects in materials and workmanship. All inserts for tungsten carbide instruments are warranted for three years.

All instruments of this grade are designated with a catalog number that begins with the prefix number 2 (i.e. 2-xxx). Therefore, if you want to purchase this quality grade of surgical instruments, please order the instruments with this number designation.

RICA SURGICAL INSTRUMENT GUARANTEE / WARRANTY

All RICA Surgical Products manufactured surgical instruments are supported by our written lifetime guarantee. RICA's unique 3-year warranty supports all tungsten carbide insert instruments in Grade 1 and Grade 2.

— RICA Surgical Products, Inc.

GUARANTEE

All RICA brand surgical instruments are manufactured to our high standards and have an unconditional lifetime guarantee against defects in materials and workmanship. Any RICA surgical instrument which proves to be defective in workmanship or materials, will either be repaired or replaced free of charge. This guarantee does not cover normal wear and tear. Misuse, modifications made to any instrument, and/or repair by other than an authorized facility will void this guarantee.

WARRANTY

All RICA brand surgical instruments with tungsten carbide inserts are warranted for three years. RICA will replace these inserts at no charge for the first three years after purchase.

Pilling® and KMedic® Instruments

RICA Surgical Products is the animal health marketer for the entire range of Pilling brand and KMedic brand surgical instruments which are part of the Teleflex Medical family of products.

For nearly 200 years, Pilling quality surgical instruments have been provided to surgeons across the world to help improve the standard of patient care. The Pilling brand is especially known for cardiovascular and ear/nose/throat specialty instruments with numerous instruments co-developed with leading surgeons in these fields. Pilling instruments provide high quality, handcrafted instrumentation that meets the surgeon's exacting requirements.

KMedic offers the most extensive line of orthopedic hand-held instruments with more than 2,000 patterns. Just like the Pilling brand, KMedic instruments conform to the highest standards of precision and reliability, consistency of pattern and lasting value.

Contact RICA's office for further information about any of the Pilling and KMedic brand of surgical instruments. Described below are just a few examples of these instruments.

KMEDIC® SUPER-CUT SCISSORS

KMedic Super-Cut scissors represent a remarkable advance in scissors technology. These KMedic Certified Instruments are crafted from the finest surgical steels, using the latest heat treating methods.

The upper blade is ground to a razor-sharp edge utilizing double-beveled edge technology. The result: super smooth and remarkably clean cutting action with superb control.

- **The industry's sharpest scissors**, saving time and eliminating frustration.
- Precision cuts for the professional surgeon.
- Cut through soft and fibrous tissue without effort.
- Less tearing during dissection/cutting means faster healing and less scarring.
- **Retains sharpness much longer than ordinary scissors.**
- Less hand fatigue for the surgeon and less trauma for the patient.
- KMedic Certified Instruments are superior instruments providing lasting value.
- The finest scissors for the professional surgeon.

SURGICAL INSTRUMENT PACKS

Based on input from veterinary practitioners, RICA has developed selected surgical instrument packs to simplify your purchase and save you money. These packs are available in two grades of RICA instruments and includes the instruments listed. If an instrument is not available in the grade listed, then it is substituted with the same instrument in a higher quality grade (indicated by ** in the pack list). To order the complete pack as is, use the product list number provided.

SPAY PACK *Includes the following 18 instruments:*

DESCRIPTION	SIZE	QUANTITY	GRADE 1 LIST #	GRADE 2 LIST #
OLSEN-HEGAR NEEDLE HOLDER	5.5"	1	1-815	2-815

INSTRUMENT TRAYS WITH PIN MATS OR SILICONE BAR HOLDERS

SteriBest® Instrument Trays are designed to hold and protect delicate instruments during sterilization, storage and transportation. Trays are available in a variety of sizes and styles, in single and double tiers, all with silicone mats or holders for added protection. Trays are made in the USA of lightweight, strong and durable Ultem®, a high performance polymer, that is heat and chemically resistant and compatible with steam and gas-plasma sterilization, to ensure long lasting durability. The base of each tray contains raised nodes which, when coupled with the additional ventilation in our trays, facilitate the circulation of steam and aid in faster drying. Transparent lids allow for easy identification of tray contents. Each lid is slotted for increased steam penetration and more rapid drying. The advanced design of the tray base and lid helps eliminate “wet pack”.

- Advanced design allows for faster sterilization and drying.
- Designed to protect delicate instruments during sterilization and storage.
- Made from the polymer Ultem® to ensure strength and long lasting durability.
- Transparent lids for easy identification of contents.
- Trays are stackable for storage.

ADVANCED DESIGN FEATURES:

- **Slotted lids and bases** facilitate circulation and rapid drying.
- **Nodes on bases** permit better steam circulation under the mats.

INDEPENDENT TEST LAB VALIDATIONS:

• DRY TIME STUDY*

Independent lab dry time results validated 25 minutes on all trays, giving you guidance to set your parameters to minimize wet pack.

• STERILIZATION VALIDATION STUDY*

Independent testing showed 100% kill both above and below the mats at 2 minutes, giving you confidence that your instrumentation will be sterile.

*Based on standards used in the studies. Refer to our website for full studies: Steribest.com

INSTRUMENT ENZYMATIC CLEANING SOLUTION

INSTRUMENT ENZYMATIC CLEANING SOLUTION CONCENTRATE

REC128
1 Gallon Bottle With Pump

RICA® Instrument Enzymatic Cleaning Solution

Concentrate, REC128, is a second generation “high level” enzymatic formulation specifically designed to break down the structure of protein soils and increase their solubility. The enzymes attack the proteins (blood, saliva, and tissue) at the molecular level and help break them apart (dissolve the peptide bonds), making this material more easily rinsed away prior to cleaning and sterilization. Using this concentrate in an ultrasonic cleaner gives an extra boost of cleaning through a chemical reaction as well as the ultrasonic wave action, leaving your surgical instruments cleaner prior to sterilization.

- Penetrates those hard to reach places in surgical instruments to help dissolve, loosen and flush blood, protein soils, and tissue.
- Helpful in eliminating the need for hand scrubbing of instruments, reducing the risk of exposure to personnel while handling instruments.
- Non-corrosive with a neutral pH for safe cleaning of instruments.
- Fresh clean scent.
- Can be used as an instrument pre-soak prior to cleaning instruments. Use warm water for this purpose.
- Excellent concentrate to use in ultrasonic cleaners.
- Fast acting, specialized enzymatic cleaner.
- Concentrated – mix 1 oz. of solution to 1 gallon of warm water.
- Comes with a complimentary 1 oz. metering pump. One stroke = 1 oz. of concentrate.
- Manufactured in a cGMP compliant facility for batch-to-batch consistency.
- Economical and easy to use.

Instruments in Enzymatic Cleaning Solution

COTTON TERRY CLOTH AUTOCLAVE GLOVES

Designed to protect hands when removing hot racks and trays from autoclaves, these soft cotton, terry cloth gloves absorb moisture and provide long-lasting comfort and protection. Made from ultra thick 100% cotton, they provide hand and wrist protection up to 250°F. They are launderable and maintain their flexibility and comfort. Available in natural color with black contrast edge. One size fits all hands.

- 100% cotton, terry cloth.
- Absorbs moisture.
- Heat resistant, up to 250°F.
- Launderable.
- Natural color with black contrast edge.
- Available in 15.5" and 17.0" lengths.
- One size fits all hands.

COTTON TERRY CLOTH AUTOCLAVE GLOVES

WECK® Hemoclip® LIGATION SYSTEM

Hemoclips offer veterinarians several advantages over sutures:

- Significant reduction in surgical time.
- Improved access in confined and hard-to-reach surgical areas.
- Improved surgical site visibility.
- Reduced patient table time resulting in lower anesthesia and overall operating room costs.
- Available in Small, Medium, Medium/Large and Large titanium metal sizes.

HORIZON® LIGATION CLIP SYSTEM

Precise Easy-Loading Titanium Clips

Weck's Horizon System provides veterinary surgeons all of the benefits and time-savings associated with the Hemoclip System, with two additional benefits:

- Easier to load clip, since the design of the Horizon Cartridge creates a near frictionless one-hand load.
- An additional clip size...Small/Wide...for more precise ligation of the blood vessel with the appropriate size clip.

Visistat® SKIN STAPLER

The Weck® Visistat® Skin Stapler is designed to meet the veterinary surgeon's need for an easy-to-use instrument with quality performance for external skin closure. Each disposable Visistat Skin Stapler is loaded with 35 regular or wide medical grade stainless steel staples that can be used in a range of surgical procedures. The precision instrument features a see-through window designed for better visibility and a patented non-stop feed mechanism designed for easy release and reduced jamming.

The Visistat Skin Stapler is perfectly supplemented by our Weckstat™ Skin Staple Extractor, providing both comfort and simplicity during staple removal.

PAW PROTECTOR® CAGE RACKS

PAW PROTECTOR® CAGE RACKS are the ideal way to keep animals dry and clean. These racks are strong, safe, durable and easy to clean. Animals on the racks are elevated 1½" from the cold cage floor to help keep them clean and dry. Unique design prevents injured paws as the pet's toe cannot become caught, twisted and injured in the rack. Constructed of a superior grade of Polypropylene plastic, the rack is strong, more durable and will last longer. Polypropylene plastic is more comfortable and warmer for the pet than metal or vinyl coated racks. Paw Protector Cage Racks sit flat on the cage floor for a stable surface, are lightweight and easy to handle. **10 year warranty** against chewing and breakage. They are available in several sizes and will fit Shor-Line®, Suburban® & Midmark® brand cages.

#1018/Rev2

Cage Dimensions: Outside 18" x 28", Inside 15.5" x 27.5"
 Rack Size: 15.25" x 27.25"
 Weighs only 2.7 lbs.

#1024/Rev2

Cage Dimensions: Outside 24" x 28", Inside: 21.5" x 27.5"
 Rack Size: 21.25" x 27.25"
 Weighs only 3.8 lbs.

#1030/Rev 2

Cage Dimensions: Outside 30" x 28", Inside 27.5" x 27.5"
 Rack Size: 27.25" x 27.25"
 Weighs only 4.8 lbs.

#1036/Rev 2

Cage Dimensions: Outside 36" x 28", Inside 33.5" x 27.5"
 Rack Size: 33.25" x 27.25"
 Weighs only 5.9 lbs.

#1048/Rev 2*

Cage Dimensions: Outside 48" x 28", Inside 45.5" x 27.5"
 Rack Size: 45.25" x 27.25"
 Weighs only 7.9 lbs.

#1060/Rev 2*

Cage Dimensions: Outside 60" x 28", Inside 57.5" x 27.5"
 Rack Size: 57.25" x 27.25"
 Weighs only 10.2 lbs

#1072/Rev 2**

Cage Dimensions: Outside 72" x 28", Inside 69.5" x 27.5"
 Rack Size: 69.25" x 27.25"
 Weighs only 12.4 lbs

*All of the racks identified with this symbol are actually two racks that sit side-by-side each other in the individual cage. Each rack of the pair is identified with laser etching to make it easy to know which pieces go together. For example, the 1048/Rev2 size rack is identified as part 1048A (25.61" x 27.25" size) and 1048B (19.64" x 27.25" size).

**The 1072/Rev2 rack is actually three racks that sit side-by-side each other in the individual cage. Each section of the rack is identified as 1072A, 1072B and 1072C, so you know the parts to this size rack.

HOW TO ORDER

To place an order to purchase any RICA instruments and products or to inquire about the instruments available and current pricing, please contact your local sales representative, visit RICA's websites at www.ricasurgical.com or www.steribest.com, or contact RICA's office located in Schiller Park:

RICA Surgical Products, Inc.
9207 Ivanhoe Street
Schiller Park, Illinois 60176
1-800-889-3218
Fax: 847-671-5690

PAYMENTS

RICA Surgical Products accepts Mastercard, VISA, American Express, and Discover credit cards for payment of invoices. Payment terms are 30 days net from the date of invoice. An interest charge of 1-1/2% per month may be assessed on past due invoices.

Make payment payable to RICA Surgical Products and send payment to:

RICA Surgical Products, Inc.
Accounts Receivable
9207 Ivanhoe Street
Schiller Park, IL 60176

RETURN GOODS POLICY

All returns must be pre-approved by RICA Surgical Products, which can be done by contacting RICA at 1-800-889-3218. Authorized returns must be made within thirty (30) days after receipt of the order. Instruments must be unused and in the original packaging. There will be a 20% restocking fee on returns over 30 days but before 90 days, a 30% restocking fee on returns over 90 days but before 120 days. No returns will be accepted 120 days after receipt of shipment. Sterile products, which have been opened, returned out of the original package or returned after the sterile expiration date are not returnable. Return goods must be shipped freight prepaid to RICA Surgical Products, Inc., 9207 Ivanhoe Street, Schiller Park, Illinois 60176 and be accompanied by a copy of the original packing list and/or invoice. All items are subject to RICA's inspection and acceptance.

The RICA office is staffed from 8:00 a.m. to 4:30 p.m. CST. Orders are shipped via United Parcel Service ground service. The actual shipping charges will be added to the invoiced amount. If you require expedited delivery, please let us know when you place your order.

STERIBEST® PRODUCT LIMITED WARRANTY

All SteriBest® products are covered by RICA Surgical Products, Inc. limited warranty. RICA Surgical Products, Inc. (RICA) warrants this product against defects in material or workmanship.

RICA will repair or replace the defective product at its option if returned within the warranty period to our service facility. This warranty is in lieu of all other warranties, expressed or implied, including, but not limited to any implied warranty of merchantability or fitness for a particular purpose. The remedies provided herein are the buyer's sole and exclusive remedies. RICA shall not be liable for any direct, indirect, special, incidental, or consequential damages, whether based on contract, tort, or any legal theory. In the United States, some states do not allow exclusion or limitation of incidental or consequential damages, so the limitations above may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This section does not limit liability for bodily injury of a person.

RICA's entire liability for any defective product shall in no event exceed the purchase price for the defective product. This limitation applies even if RICA cannot or does not repair or replace any defective product and your exclusive remedy fails of its essential purpose. See the RICA website for full details of limited warranty. Contact RICA Surgical Products, Inc. for more information.
